

God's Book of Love Stories

Heavenly Father, call me by my name, touch me on my shoulder, whisper in my ear. For you are my everything and therefore You are my only thing.

In another dimension, in God's dimension, the Trident God is and as He has spoken **I am**. Everything that is was or ever was or will ever be can be summed up in His will. There is no time in God's dimension, but only His will. God is the only god. There is no other. One amazing thing about **He that is, is that He is love**. That love radiates from His will. That love is for the Son, and Son's love is for the Father. From this great love, the Spirit of God which is all this love radiates into all of God's kingdom. He that is, is complete and perfect. Nothing can be taken or added as it would no longer be perfect. From this great love, the universe was created. While man searches for the reason and creation of things, it's as simple as that all things were created for and from love. The basis for all things is the will and love of God. God does not love more or less but perfectly. The absolute power and majesty of God are contained in His love. His Glory is His own which is neither borrowed nor created but is.

God has a storybook and it is a storybook of love. This book in man's time is ancient. It is so old that there is no reference point to measure its age. It is this book that I am writing about. Only I can write this story at this time because there is no value in anything I could be or do as I am greatly flawed. I am a great sinner for I have loved the Father and rested in His arms but turned my face from Him and sinned. He has spoken to me and wrapped me in His love, but still with all these things I continued to sin. Therefore anything I may write is not from me a sinner but from the Holy Spirit who placed love in my heart and soul. I cannot and do not have words that describe how much the Father loves His children. How do you describe perfectly with imperfect words?

If you look deeply into your soul, you can find this love. Once you find it you will never be happy until you return to Him who is the source of it all. I have felt the Father's love and I have no words for what I felt. It is a feeling that permeates your very being. It is a feeling that completes what and who you are. It's a feeling that you will thirst for and never get enough.

God's love is the stuff we are made of.

For all those who do not believe or see God in everything, place your finger across your wrist and feel the blood created from love pulse through your body. Look at something as simple and wonderful as a bee or a fluffy cloud. At night look at the moon and the many stars that twinkle in the earth's atmosphere. Look at the hands' feet and eyes of a small baby. Look into the eyes of your wife, mother or children. Look at the weak, sick, lame or hungry. Look at the poorest of the poor which thirst for God's love. All of humanity and the world which God created are hungry for His and your love. Will you walk away from this? Do you not see the

glory of God? You, my brother and sister, are God's glory. Even if you do not believe, you are the best thing God has ever created. You are precious in His eyes and so are all those around you. If you only stop and look at others you can see this Glory, you can feel this glory as it radiates out and covers all of creation. Each of us is like the moon that reflects the sun's rays. You reflect God's glory. **In each of us is the reflection of God.**

Why don't Gods wonderful creations see His glory? The answer comes from freewill. You have the most wonderful freedom that separates you from an animal or a robot. You have free will to do what you choose. Because of our fallen nature, free will becomes an even more wonderful thing or a blessing that can be used for dark and evil things. Humans can choose to love or hate. Humans can choose to create or kill. Humans can choose to create their god or place them self's as their god. Love then becomes a choice. Love can be ignored. What is so precious to God are His children that He created in His image and likeness. With free will, all His children can be ignored and robbed of their happiness by those who only see them as a commodity or an object to be manipulated for their benefit. For those that choose this path of self-love which is a false love, there is a story in God's great book of stories about them as well.

As you must understand:

Every human ever created from love has a love story in God's great book of stories.

So what is God's desire in all this? It's so simple. All He desires is that you use your free will to love Him as He loves you. With your free will be participating as a part of His glory. It's not hard; all you have to do is love. Love God and love your brothers and sisters. The universe and everything in it were created with love. **Love can overcome everything. It can build anything. It could take us to the stars, stop hate and war, clean the earth and feed a planet.**

In the end, it's just a choice. ***A simple little choice like yes or no.*** As you have free will, each of our stories in God's storybook is either finished or being written. The outcome of your story is a choice, and that choice is to use your free will to create darkness or create a wonderful world of love.

The ending in your story is your choice – please make that choice wisely. Be and become Love. Just remember that the ending in your story will go on for eternity. Once completed there is no turning back just like in a paper book. What has been written will stay written and you write it with your hand. All the stories in God's book of stories start the same. From the very start, God loves you and will always love you. That part cannot change.

Finding your Story

So in your mind's eye let's go find your story. How old is your story? Because it's God's story it never had a start and as you progress through your story there will be no end. Because God is eternal (no start or end) and your story is eternal as God is eternal. God saw and loved you through eternity. He knew what you looked like and He waited for just the right time to give you a part of His glory. That burning light that resides in your being and is your soul. Because God created you with His whole being and will, that part of Him that became you will be and exist for as long as God exists which is for eternity. Humans are God's greatest glory. You are precious beyond all understanding. Your worth is priceless and cannot be measured. What you belong to God. You are His most precious and valued possession. **All of us are sons and daughters of God.**

I once wrote this and I think it still applies:

The human is the most wonderful creation and some of the good things we are about and can do are breathtaking. Humans make the angels envious and they marvel at what we are. The dark one hates us for he sees in us something that he will never be. That is a child of God made in His image and likeness and destined to share all that God is if we only love Him.

All of this sounds wonderful, but, yes there is always a but isn't there? Man is a fallen being. Because only pure and spotless things may be part of God's kingdom, you were forced out of His kingdom. Is that strange? Does that mean He does not love you? The answer is no. The answer is that you could not even stand before the glory of the Father in your fallen state. It would be painful and you would run from such purity and glory.

So here humanity was, fallen and not worthy to be part of the Father's kingdom. You were created by the Father for the Son through the Holy Spirit but sin is not allowed in God's kingdom. What are we able to do? The answer is there is nothing you or I can do. We were trapped in our sin. We had created a barrier between us and God's glorious kingdom. The barrier belonged to us. We had created it with our free will. When you or I sin we build that barrier even larger. So it does not look good for all those billions of stories in God's book of love. The endings of all of them would be the same.

Love. Everything is love. Things don't work without it. Electrons would not whirl around a nucleus without it. The universe would fall apart without it and you would not exist if it was not for love.

Love

Corinthians 13:4-13

Love is patient, love is kind. It does not envy, it does not boast, it is not proud. It is not rude, it is not self-seeking, it is not easily angered, it keeps no record of wrongs. Love does not delight in evil but rejoices with the truth. It always protects, always trusts, always hopes, always perseveres.

Love will last forever, but prophecy and speaking in unknown languages and special knowledge will all disappear. Now we know only a little and even the gift of prophecy reveals little! But when the end comes, these special gifts will all disappear.

When I was a child, I talked like a child, I thought like a child, I reasoned like a child. But when I grew up, I put away childish things. Now we see things imperfectly as in a poor mirror, but then we will see everything with perfect clarity. All that I know now is partial and incomplete, but then I will know everything completely, just as God knows me now.

So where do you find love? Here we were billions of souls sealed off from God's kingdom. We now knew sin and our freewill could be used to sin. It didn't look good for all of us except that love **COVERS A MULTITUDE OF SINS**. Surely you do understand it is not our love that covers sin but the love of the Son for the Father and the Father's love for the Son? Again I ask where do you find love?

Here is the real answer:

To see and understand the love you must look into the very womb of Mary the mother of Jesus. Through her yes, through her freewill, God the Father and the Holy Spirit placed the Son not as a god, but as a simple helpless baby in Mary's womb. If that does not make you stop and think I am not sure what would. Just what kind of God do we have that would do such things out of love for his children?

From the birth of Jesus until his death for us on the cross, Jesus was a pure example of love. Jesus came to serve, forgive and be an example of the very essence of His Father. If you are seeking love, then seek Jesus. If you want to be love then become Jesus like. There is no other place that one can find real love. If you want others to find love, then love them as Jesus loved and when they see your love you can point to the source, that is Jesus the Lord.

This very act by Jesus enabled the outcome of those billions of stories to be good ones.

The story of Jesus

Jesus has a story in God's book of love as well. You and I call it the bible. It is a story of love and passion. It is an almost unbelievable story of giving one's life for others. It is a story that shattered time and made available the eternal kingdom of God to all. It is a story of good and evil. It is a story of redemption. It is a story that all of us can make a part of our own story. When the Son of the Father became a simple man, that act confirms how wonderful humans can be and are. It shows that we are a wonderful creation.

What are you writing about in your story?

Is there love and compassion there? Are Jesus and redemption there? Is Jesus your Lord and King and God and Savior? Is there love and purity there? Do you love others by loving God?

Know this as it is from the Holy Spirit:

To have Jesus is to have all things good. (He is your everything)

When there is no love

When men despise you

When all your possessions are nothing

When your children turn their backs on you

When your wife does not know you

When there are only stars above you for a home

When you are almost naked and are hungry and cold

When you have lost all your dreams

When the world is barren and you feel lost and weep for the way it was

When your friends abandon you and curse your name

When hope has left your heart and your soul has been emptied of all worldly things

Know that when you only have Jesus, you will have everything.

Back to Love

When There Is No Love

Our marriages don't work

Our lives don't work'

Our families don't work

Our businesses and jobs don't work

Our cities and states don't work

and worst of all

WITHOUT LOVE THE
WORLD DOES AND WILL NOT WORK

Does any of that sound familiar?

Do you ever think about the world? Do you ever think about love? Is your life a closed up book in God's storybook of love? Please listen to these words: "***The Father is looking for His children who will love Him***". He wants to be loved by your freewill. He wants to be your "***Only Thing***". Do you think the world is really happy? Are you really happy with the world? Do you wonder if your children will always be happy and safe? I ask these questions often, do you?

A warning

You could write this warning as easily as I do if you would be a watcher at the gate. What is headed this way? What do you see? ***As Christians, we have failed hugely.*** We have allowed our governments to rob us, kill our children and make money in the process. Soon it will be a crime to be a Christian. People of questionable faith hate other peoples of faith. Christians see other Christians as the enemy. I find it strange that someone that calls themselves a Christian would not like me or speak badly of me. The question requires an answer. Who is your enemy? Certainly, you and I are not!

The Coming Storm

We are so blessed for if you are a follower of Jesus and He is your Lord and Savior you then have an opportunity that only happens once in eternity. **Yes, you and I are living in the times of the great storm.** This storm is a cloud of evil that is choking the life and goodness of God's children. It is a cloud of hatred and evil that consumes all those who live in its

darkness. It calls good evil and evil good. It consumes and tries to destroy all good and pure things. The Devil and his minions have worked very hard for thousands of years to get to this great moment of evil and darkness. He wants you to just sit there being happy with your cell phone and car. A refrigerator was full of worthless food and a game console. While that is happening the world is being consumed by darkness. It's in the streets, in our government, in our churches and our entertainment and even in our homes. Have you ever heard of these things in your church? You are being told that you must get along. Don't ask questions or make a fuss and don't say anything that would be considered not nice. Abortion is a good thing as it is legal and a right. If you are going to survive this great storm, then you can't sit idly by. You now have the opportunity to save many souls. The survival word I used above is not talking about physical survival but spiritual survival.

We need to look at our self's and the world and cry

Now is the time to look out on the world and cry. Cry to the Father for the total mess we have made. Cry for our churches who have failed us by their silence and corruption. Cry for the millions of Gods precious people killed through centuries of war and the continuous wars that use our sons and daughters as cannon fodder. We need to cry for our children and our country. To cry about all the corruption and abuse. Cry about the selling and abortion of our children. Cry about sex trafficking and abuse of our children and daughters. Cry for our souls because we have done nothing. We have kept quiet. Our silence cries out to God. Our silence is a great sin against humanity. We have closed our eyes and ears. While God is love, He is also just. Everything that you or I have ever done or not done said or not said will have to be answered for as it is all recorded in our story. A starving child, a poor mother or an abused old person is crying out for Justice. Did we fight for that justice? Is it just a story on TV? Is that old person or mother not our sisters or brothers, mothers or fathers?

“Strangely enough, most people don’t see that they can kill and abuse people by their silence. Silence can be a sin.”

The Line in the sand

I hope that you are writing your story right now and we all understand that it will be written even if we don't think we are. There is a line in the sand that has been created with our freewill. On one side there is no war, hate or greed. On that side, there is only love. Not perfect love but love chosen using our freewill. On this wonderful side of the line, there is peace and prosperity and blessed existence. It is a place where everyone can see each other as a brother or sister. There is no hunger on this side and the earth is a beautiful bountiful place and is nourished and appreciated as a blessing. It is a place where children safely run and play. It is a place where we take care of each other. It is not a perfect place, but because

we all worship and love the same God, we are united by His glory. This side of the line is a choice. Only the greedy and evil would not choose it. Only those trapped up in their wants and desires would ignore it.

On the other side is only death and darkness.

If we wake up we will see that death seems to be a reoccurring choice for humans.

We kill with weapons, words, and laws. We destroy for money and self. The poor are looked at as weak. A child is a burden. Soon this side of the line will destroy most of the earth and the people who live on it. By sitting in our home with our “**whatever**” and hiding there ignoring the plight of the world and never listening we have surely chosen this side by default.

If we think we are good because we have never done bad things, **think again.**

Being good is only a start. What about everything else that is not about you or me? Strangely this has been going on for thousands of years. Our freewill has created a great storm and it is headed our way. It is coming and looking for a climax that will destroy our earth and God's children. Some perhaps will survive but not many. The good, pure and purely evil will die. What a waste as it is only a yes or no choice. What is coming is a lie and you and I may have been fooled beyond belief. We are believing a lie and think everything will be OK.

So what will be written in the story of the billions of people on this earth at this time? Will it have a happy ending? Or will it be filled with only darkness? Will the human race survive? Are we worth saving? God thinks you are but do you? For all of us, the last train has arrived at the last station. Two paths are leading out of this station. One leads to that dimension where God sits on His throne. The other is a path to hell. What path will you and I choose?

It's your choice, it's your story, it's your free will.

Writing this has taken a toll on my very being. I don't sleep very well anymore. There is a great pain there where love has been burned into my very soul. I cried when I saw and felt this inescapable love. In a flash, I saw myself. A sinner, unworthy of anything, lost to sin and evil and lost in this world we have created. **Only because of the Divine Mercy of Jesus can I find any hope or joy.** As I look at my brothers and sisters I only see myself. I cry for myself and you my brother or sister as very few seem to care and if they do only care for a few.

It's time to care for the world or we will soon be stripped of it and from it. Keep on writing your story but give it a good ending.

May God bless and keep safe all that you love.

Your Brother in Christ

God's Book of Love Stories (A continuation)

I asked the question:

Is human creation worth saving? What do you think? What do you think will finally play out and what will happen to God's children?

I live here in the United States, Can it be saved from its self-inflicted death wish? For a certainty I can say this as there is a sun in the sky:

Without a moral compass based on our creator God there is no hope

Men will tell you that we don't need a God. That man's creations will save us and be our savior. That we have a glorious future and with and through science we can live longer and create our utopia based on the goodness of men's hearts.

The above is a great lie and deception

The coming great storm wants to create a perfect world out of the compete chaos it will inflict on the world. From its ashes will arrive a savior that will set everything right, but for that security, you will have to give it your very soul.

The above is the simple truth

What I have written above is nothing new and I am no profit. I am 75 years old, and I can attest that what I have written above has never been discussed in any church service I have ever attended. In your church have you heard and felt the pain of unborn children destroyed by abortion? Millions of them destroyed, but few if any words. It's right down your street or in your city, it's in your state and your country and it's in your world. Nothing said nothing to worry about here. God loves you and have a nice day. Have you heard anything in your church about the destruction of marriage? Not really, we just need to keep silent and get along. Be a nice guy or girl. Or the best one – write your representative. Keep silent, the IRS may tax our churches if we speak out. Don't talk about such things and have a happy day.

In my humble and perhaps flawed opinion, I think that a huge number of the so-called Christian churches of the world are dead. The question remains, what are they dead too?

The answer is:

They are dead to the Holy Spirit. God's graces and power are not there. Jesus said He would spit you out of His mouth because you are lukewarm. If the Holy Spirit is not in your church, try to invite Him there. If you are rejected, then go where He is. Associate with those who have a God based and Spirit-based life. Invite the Holy Spirit into your life and family.

More Stories

Each country also has a story in God's storybook of love. As an American, I can only relate to my country. It offends me and grieves me that the United States is responsible for large amounts of greed, death, pain, and destruction brought onto the world. While you may say that I have no part in all this, I will only look at you and say "**What about your silence**"? I think a president talked about the "Great Satan". Well, that title fits our country. Yes, I know you may have served or your father or children served in the military. If they did that from the goodness of their heart may God bless them. But as I am a child of the 60's I can tell you that many died for our country for money and power. For companies that supply things used to kill and destroy. Why? The answer is for money, power, greed and even unbelievable evil.

So you know what I think about the US. What do you think? Are we the savior of the world? Do we spread democracy or only Porn and the trash that Hollywood creates? Do we love and help countries or do we destroy them? I think I heard last week that we drop a bomb every 12 minutes 24/7. We are running out of rockets, bombs, and ammunition to kill with.

What I see is a country that cannot be saved because it doesn't want to or just doesn't know how to. God will punish the US for its sins and silence. You and I will be the cause of that punishment. The only hope that any of us have is the ability to save our soul, and that ability is a gift that sprang from a God of Love who died an agonizing death for you. Don't you see your worth? Again I ask you to cry, cry for what we have become.

From out of this one day will come a new world. There will be a small but God-centered remnant that will worship the living God. They will be peaceful and loving. Those who are lost will see this and seek them out. The world will be at peace and Jesus will rule through His spirit for a thousand years. Then the end will come.

You're Brother in Christ
